having 2 HoD and 2 state
senate districts is confusing
and expensive for the Registrar -
who needs to print multiple
ballots each election. It
would be easier to treat
Lynchburg as one community
of interest so as to
encourage greater citizen
participation and create
savings for the city government.

Suggested comment prompts:

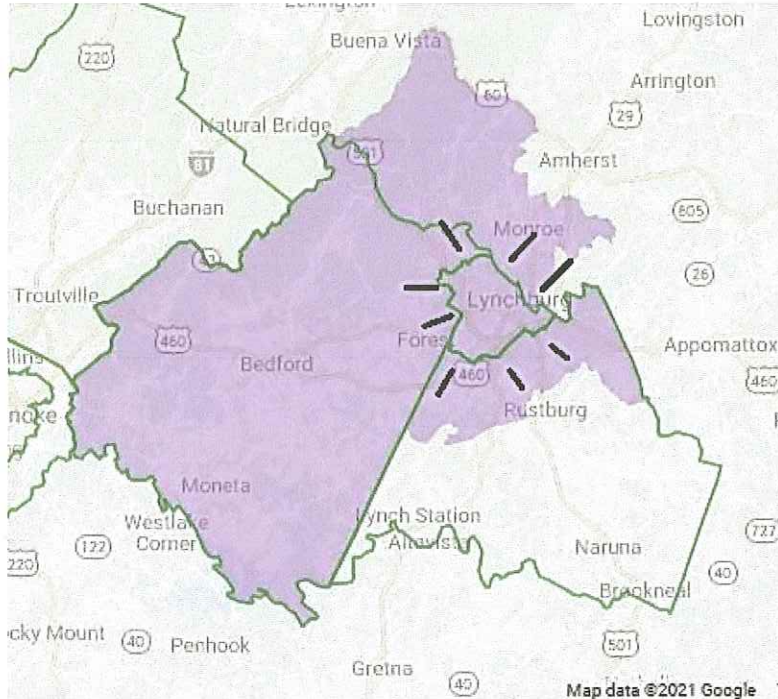

- What bonds your community?
- What do you see as the common links in your community?
- Where is your community located? How do you define the boundaries of your community?
- Why should your community be kept together? Why should your community be kept separate from another community or area?

UNIFYING THE CITY OF LYNCHBURG

Prior to 2011, the City of Lynchburg was in a single House of Delegates district and a single Senate district.

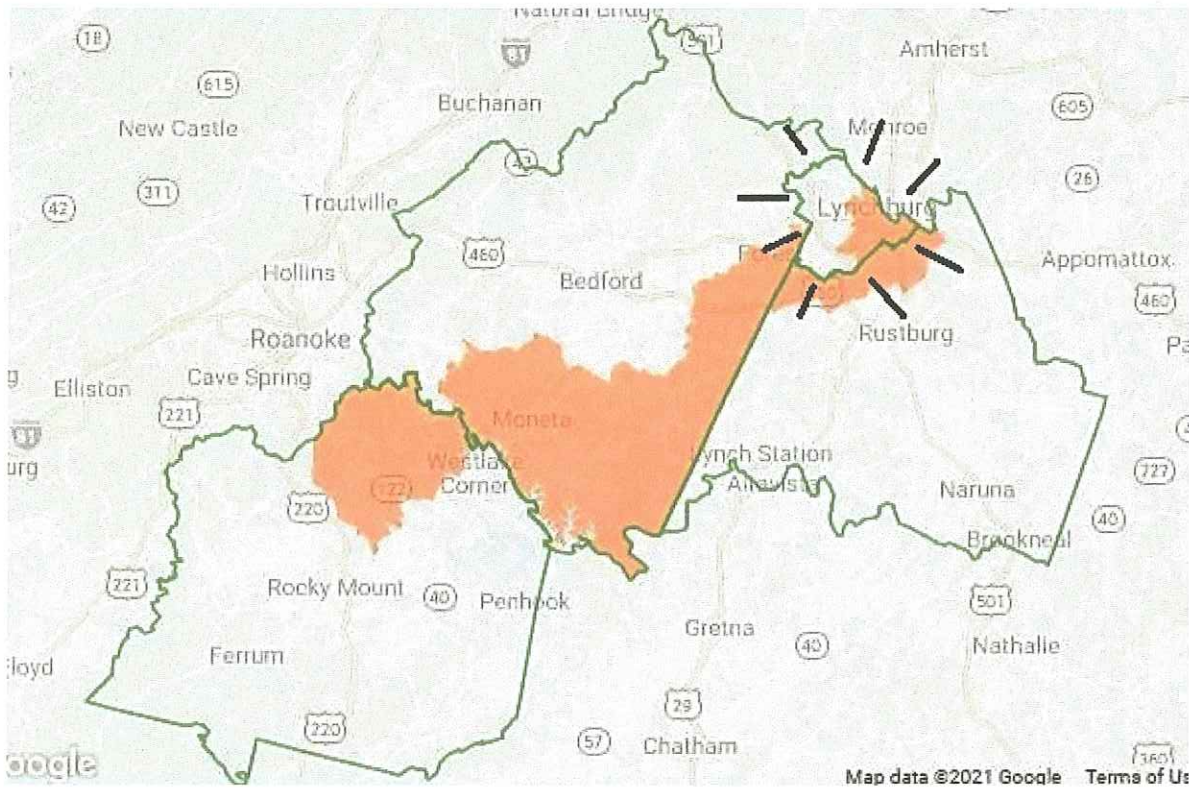

HOD District 23, 2001-2011

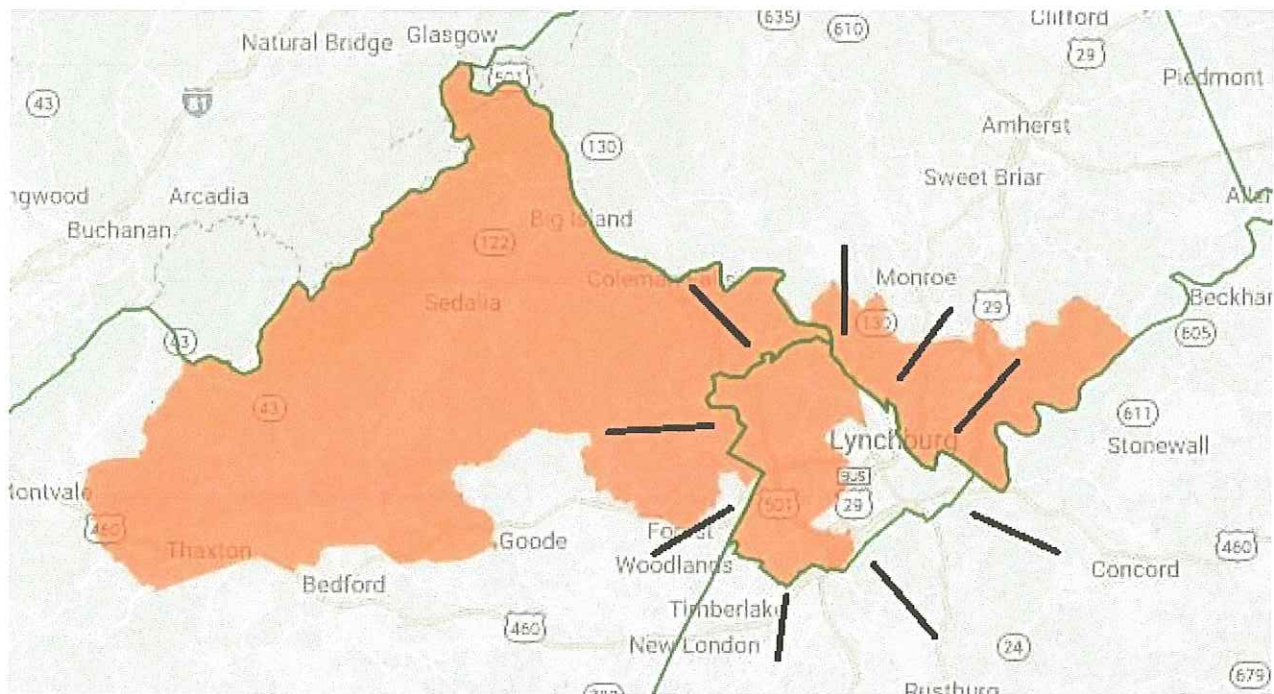

Senate District 23, 2001-2011

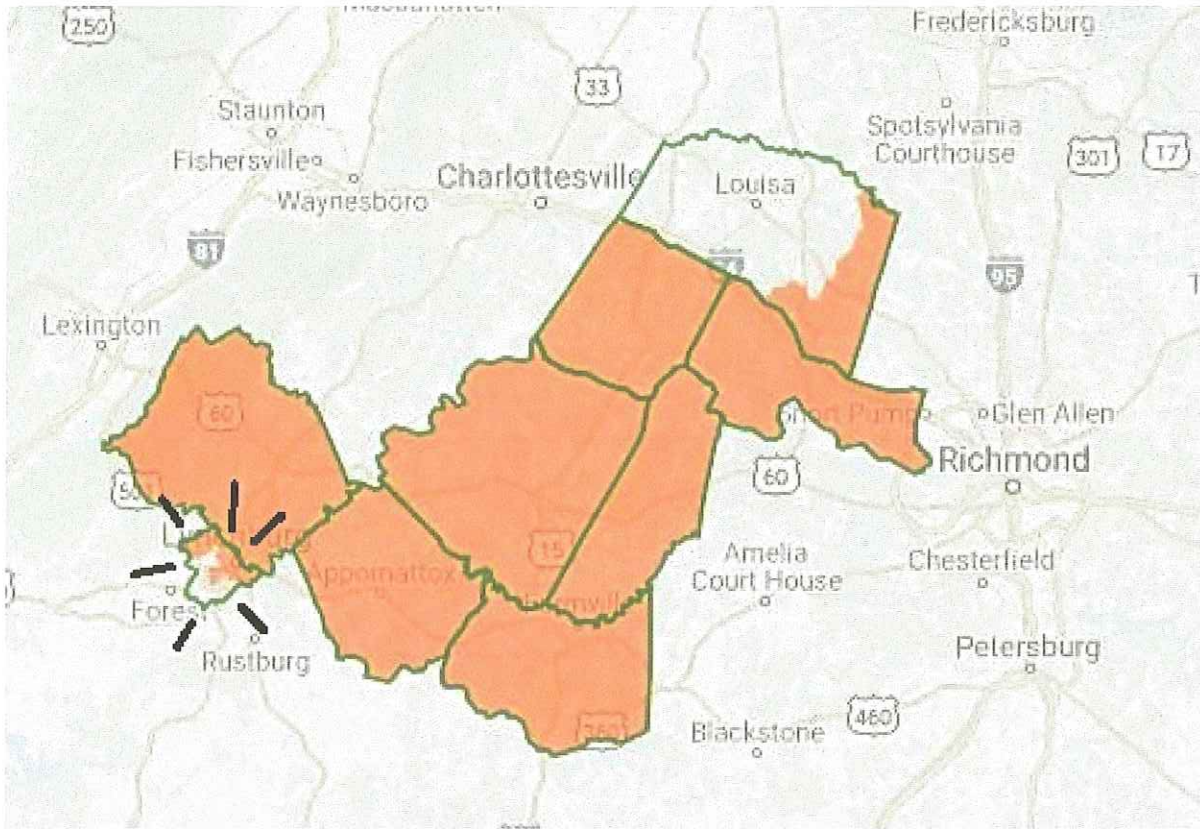

Since 2011, the City of Lynchburg has been split four ways between two HOD districts and two Senate districts.

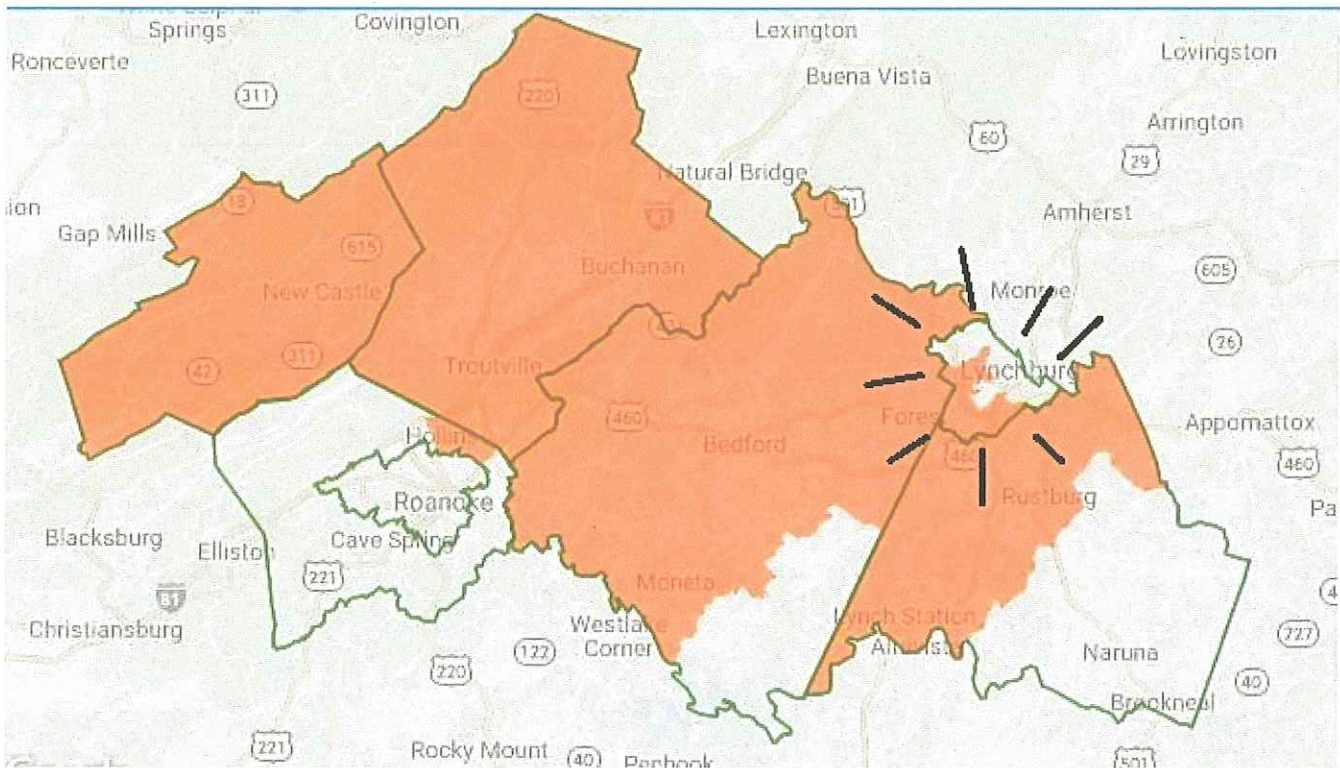

HOD District 22, 2011-present

HOD District 23, 2011-present

Senate District 22, 2011-present

Senate District 23, 2011-present

Current representation of City of Lynchburg citizens:

HOD District 22: 25% of total population

HOD District 23: 64% of total population

Senate District 22: 28% of total population

Senate District 23: 17% of total population

With a Unified Lynchburg included in a single HOD district and a single Senate district, and with districts divided equally by population:

City of Lynchburg citizens would comprise 96.3% of a single HOD district.

City of Lynchburg citizens would comprise 38.5% of a single Senate district.
